

A large, blue, curved metal structure, identified as a crane hood, is shown against a clear blue sky. The hood has a large, arched opening in the center, revealing internal components. It is supported by a sturdy metal frame with several thick, angled legs. The overall design is industrial and functional.

FOREST STEEL CRANE HOOD

Designed for attachment and use
in forest cranes

PRODUCT SPECIFICATION

Product name: Forest Steel Crane Hood

Product name in original language: Forest Steeli tõstuki kaitsevari

Product manufacturer: Forest Steel OÜ

Custom code: 84314980

Product type: CH25, CH25W

PRODUCT DESCRIPTION

Introducing the New Crane Operator Protection for Maximum Safety!

The crane operator usually sits outdoors without any weather protection. Forest Steel Crane Hood is made of unique weatherproof material, which protects its user from all weather conditions – no matter if it's sunny or windy, raining or snowing.

The use of a wind, snow and rain cover can be used only when there is a need for such and thus it is not necessary in good weather. This enhances user comfort, visibility and accessibility for the crane operator.

Forest Steel Crane Hood is installed on a forest machine crane's high seat to ensure the crane operator's protection. Thanks to the high-strength aluminium profile and back piece, the hood weighs only 25 kg - making it the lightest on the market.

Compared to a classic crane cabin, it is much more affordable saving you a great amount of money and time. The hood is suitable for all leading forest machine cranes, such as Loglift, Kesla, Jonsered, Cranab, Epsilon etc.

THE PRODUCT CONTAINS

Aluminum profile

Aluminium back piece

PVC fabric

Iron FE-52 frame

Iron FE-52 attachments

Plexiglass (for CH25W model)

Fastening straps

Bolts, nuts, springs, washers

APPLICATION / USE

Forest Steel Crane Hood is designed for attachment and use in a forest crane's high seat to protect its user from all weather conditions – sun, wind, rain or snow.

TECHNICAL DATA

Height: 135cm

Length: 120cm

Weight: 25kg

Model: CH25 without windows; CH25W with two windows

Material: iron, aluminium and weatherproof material

Color: blue

PACKAGING

One small pallet, with the following dimensions 60x80x135cm.

DELIVERY

Delivery time: in stock or custom-made order 2-3 weeks.

Delivery terms: EXW Tallinn

Place for shipment: Järveküla, 75304 Harju County

NOTES

If you wish to come see the product before making the purchase you are welcome in our warehouse.
